Where Every Child Shines

About Us

Sunbridge Academy provides high-quality learning and activity lessons for children and young learners. We bring together creativity, sport, digital skills and holiday enrichment to help children grow with confidence, curiosity and joy.

Our programmes are designed for beginners and early learners, with a strong focus on encouragement, clear guidance and positive progress. Whether a child is picking up a guitar for the first time, learning badminton, exploring AI tools, or joining a holiday camp, we aim to create an inspiring environment where every child feels supported.

Our Mission

To help young learners build confidence, creativity, discipline and future-ready skills through engaging, well-structured and child-centred programmes.

Who We Support

- Primary and secondary school students
- Beginners and early learners
- Families looking for high-quality enrichment activities
- Children who enjoy creativity, sport and digital learning
- Families who value bilingual support and international learning

Our Learning Philosophy

At Sunbridge Academy, we believe that children learn best when they feel safe, inspired and genuinely engaged.

● **Confidence First**

We help children build confidence step by step through positive guidance, achievable goals and supportive feedback.

● **Learn by Doing**

Our lessons are practical, active and interactive. Children learn through playing, making, exploring, practising and creating.

● **Future-Ready Skills**

We prepare young learners for a changing world by developing creativity, problem-solving, communication and digital confidence.

● **Balanced Development**

We believe children should grow academically, creatively, physically and socially. Our programmes support the whole child, not just one skill.

Learning should be active, creative and meaningful.

Our Lessons

Sunbridge Academy offers a focused range of programmes designed to support children's creativity, confidence and future skills.

● Guitar

Beginner-friendly guitar lessons for children and teens, available in small groups and one-to-one sessions.

● Badminton

Structured beginner badminton coaching to develop coordination, movement, fitness and confidence.

● AI Skills

A creative introduction to using AI tools, logical thinking and future-ready digital problem-solving.

● Holiday Camp

A safe, enriching and enjoyable programme during weekends, after school and school holidays, combining creative, active and learning-based activities.

Beginner Guitar Lessons

Music, Confidence and Creative Expression

Our beginner guitar programme is designed for children and teens who are new to music or at an early stage of learning. Students develop musical confidence through step-by-step guidance, enjoyable songs and practical playing experience.

We focus on making guitar learning clear, encouraging and achievable, helping students build rhythm, coordination, creativity and self-expression.

Class Options

- Ages 7-12
- Ages 13+
- Small group classes: 3-6 students
- One-to-one lessons available
- Beginner friendly

What to Learn

- Basic chords and strumming
- Rhythm and finger coordination
- Simple songs and musical patterns
- Playing confidence
- Creative expression
- Performance and progression opportunities

Why It Matters

Music helps children develop imagination, focus, emotional expression and confidence. Guitar is a creative skill that children can enjoy for life.

Beginner Badminton Lessons

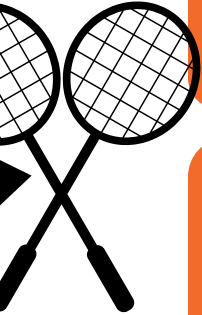

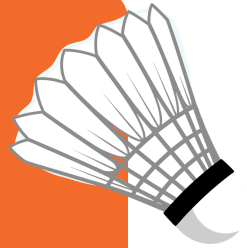

Movement, Fitness and Confidence

Our beginner badminton programme helps children develop coordination, agility, fitness and confidence through structured coaching in a fun and supportive environment.

Sessions are designed for children who are new to badminton or at an early stage, building technique, movement skills and a love of sport step by step.

Class Options

- Ages 6-10
- Ages 11+
- Small group classes: 4-8 students
- Beginner friendly
- Indoor venue

What to Learn

- Grip, stance and footwork basics
- Hand-eye coordination
- Serving and rallying technique
- Movement and agility
- Game awareness and rules
- Teamwork and sportsmanship

Why It Matters

Sport builds discipline, resilience, physical health and social confidence. Badminton is accessible, fun and develops lifelong fitness habits.

AI Skills

Creativity, Logic and Digital Confidence

Our AI Skills programme introduces children to the world of artificial intelligence, creative technology and logical thinking in a fun, hands-on and age-appropriate way.

Students explore how AI tools work, develop problem-solving skills and build digital confidence through guided projects and creative challenges.

Class Options

- Ages 8-12
- Ages 13+
- Small group classes: 4-6 students
- No prior experience needed
- Laptops provided

What to Learn

- How AI tools work
- Logical thinking and sequencing
- Creative problem-solving with AI
- Digital safety and responsibility
- Building simple AI-powered projects
- Presentation and communication skills

Why It Matters

AI is shaping the future. Children who understand how to use AI tools creatively and responsibly will be better prepared for school, work and life.

Holiday Camp

Fun, Learning and Growth All in One Place

Our Holiday Camp is designed to support busy families while giving children an enriching, joyful experience during school breaks.

Children learn new skills, make friends and stay active in a safe, supervised environment — so parents can feel confident and relieved.

What We Offer

- Music, Art, AI & Language Tutoring
- Creative games and activities
- Ages 5+, flexible booking
- Full-day and half-day options

Our Team

- Professional music & language teachers
- AI teachers with tech industry experience
- Art teachers from top London art college
- Experienced tutors skilled in childcare
- DBS-checked, first-aid trained staff

Space

All camps take place at local partner schools — familiar, secure and easy to reach. Parents can drop off with peace of mind knowing their children are in safe hands.
